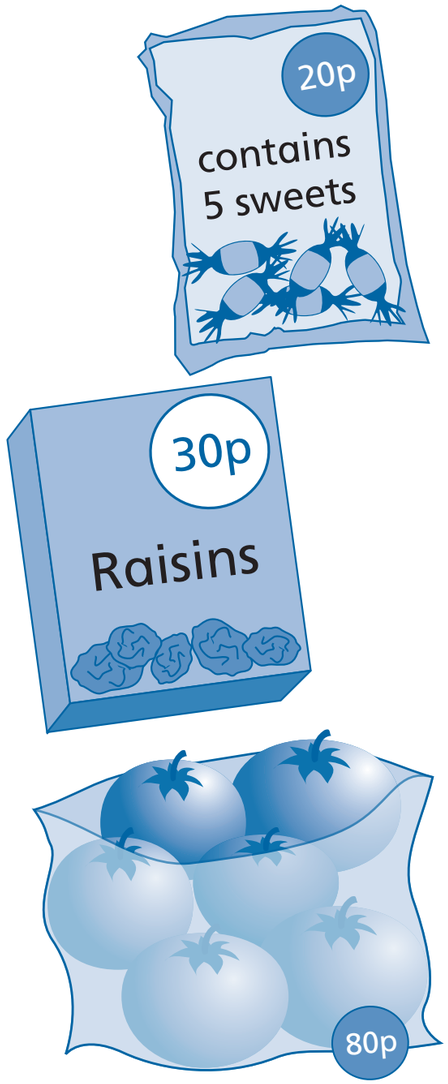
Shopping

1. There are 23 children. How many packets of sweets must I buy so that everyone has a sweet?

2. I have £1. How many packets of raisins can I buy?

3. One full bag holds 6 tomatoes. The shopkeeper has 14 tomatoes. How many full bags can the shopkeeper make up?

4. How many packets of sweets can I buy for 50p?



Make up a story problem like this of your own.

Remember to take your homework to school to show your teacher.

Your teacher will give you this homework sheet back, so you can keep it at home to play again and again!

Ocean Maths Project

Multiplication and division

Name .....

Children learn best about numbers when they are doing things they find interesting. The games and activities on this homework sheet will help your child with multiplication and division. Your child will be practising:

- finding remainders after division
- making sensible decisions about rounding up or down after division
- multiplying and dividing mentally

These activities give you the opportunity to get involved in your child's education and give them support and encouragement. You can see for yourself what sort of things your child learns at school, while helping them with their studies.

Count the letters

a game for 2 players

You need

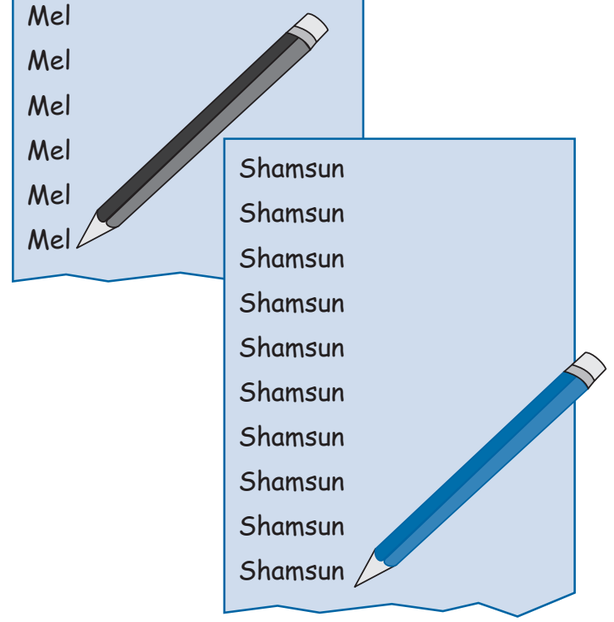
- a piece of paper each
- a pencil each

One person say 'Go!'.

Both people, write your name 10 times in a list.

Work out how many letters you have written.

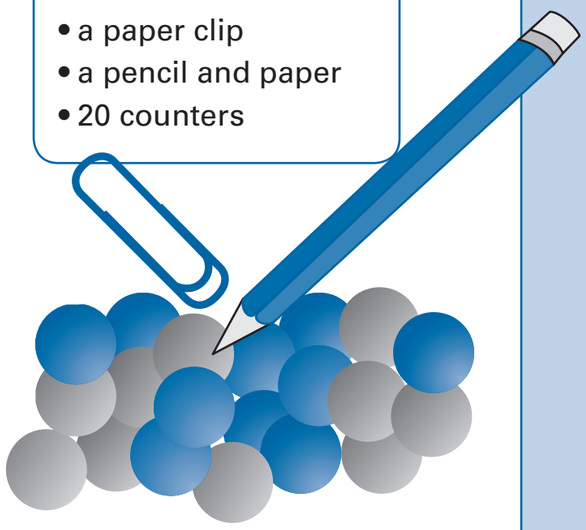
Hint: multiply by ten instead of counting each one.



Win the remainders

a game for 2 players

You need
- a paper clip
- a pencil and paper
- 20 counters



Take turns to
- spin the number spinner and write down the number
- spin the colour spinner to find a colour
- find the row of numbers which are that colour
- choose a number in that row and say it
- divide the number on the grid by the number from the spinner
- if you get a remainder, take that many counters and keep them

Stop when the counters run out. The person with the most counters wins.

Hint: use some counters to help you divide.

4	6	8	10
18	16	14	12
10	8	6	4
12	14	16	18

Remember to read the instructions before you play the game
