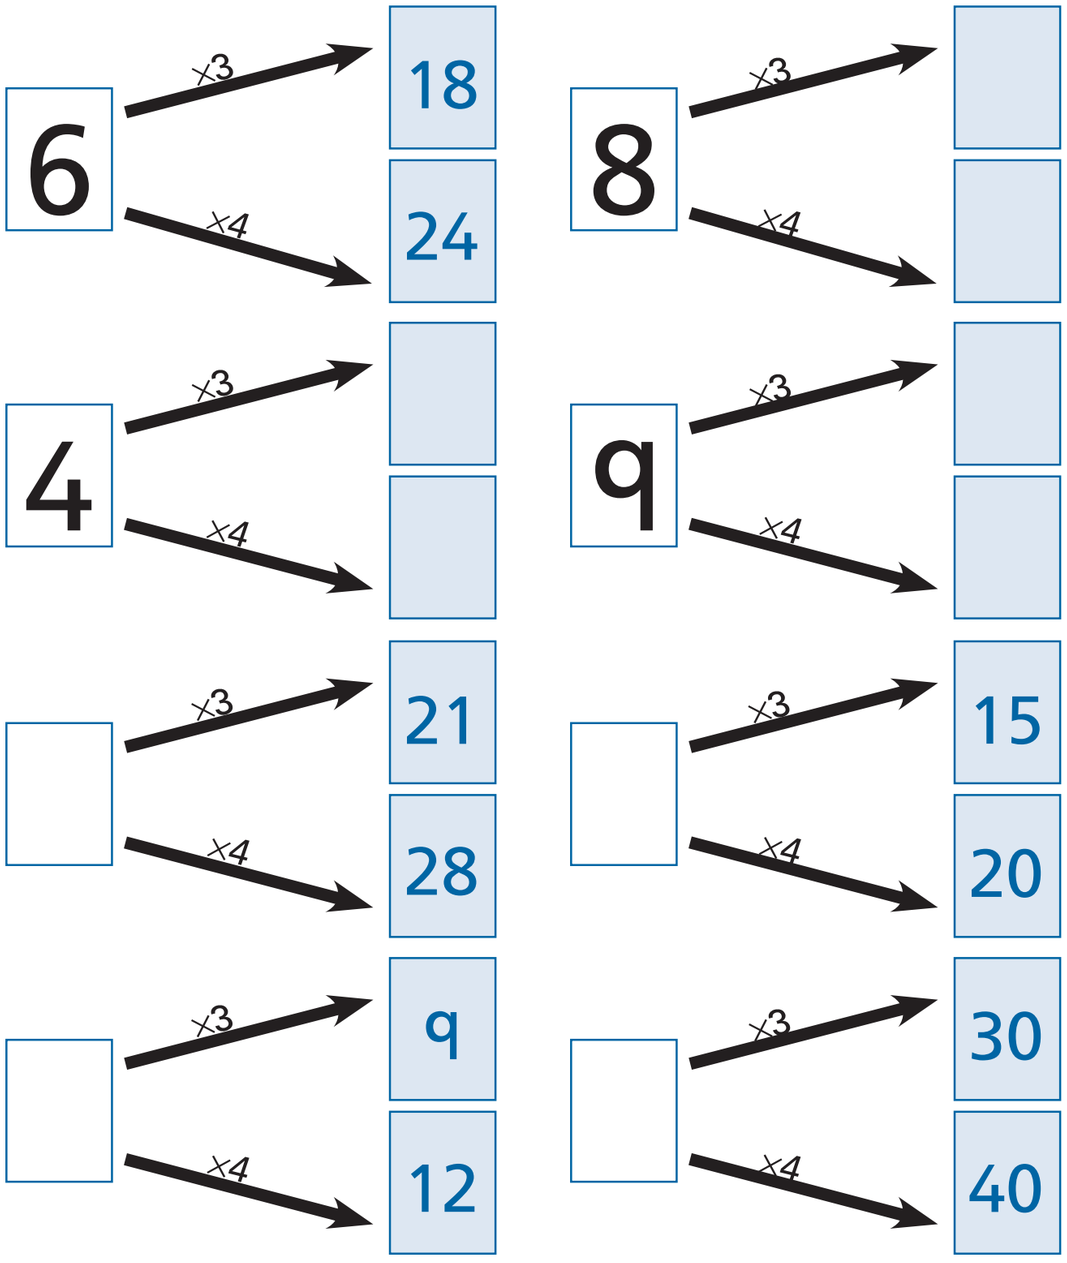
Fill in the boxes.



Remember to take your homework to school to show your teacher.

Your teacher will give you this homework sheet back, so you can keep it at home to play again and again!

Multiplying

Name .....

Children learn best when they are enjoying their work. The games and activities on this homework sheet will help your child learn about multiplication. Your child will practise:

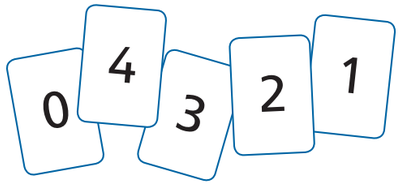
- solving word problems
- multiplying by 3 and 4

Learning is far more successful if it's fun, so be enthusiastic and help your child enjoy the maths. The homework sheets always involve mathematical activities, games and puzzles to be shared. The emphasis is on enjoyment, exploration and discovery.

Solving number problems

You need

- number cards 0 to 4



In Taz's class there are ☆ people.

On his birthday he wants to buy cakes for everyone.

Cakes come in boxes of 6.

How many boxes should he buy?

Answer: ☐

Choose two cards and arrange them to make a 2 digit number.

Write that number in the star.

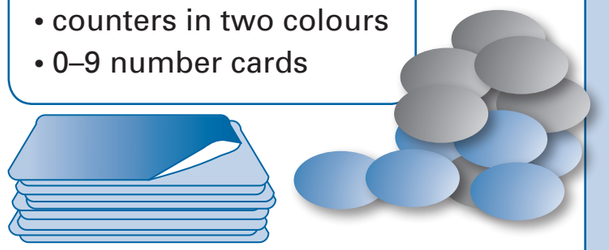
Now solve the problem.

Try again with two different number cards.

Can you guess?

a game for 2 players

You need
- counters in two colours
- 0–9 number cards



Before you start
- decide who will have which colour counter
- shuffle the number cards
- put them in a pile, face down

Take turns to
- pick up the top card; **don't say the number – keep it secret**
- either multiply the number by 3 or 4
- say the answer and put a counter of your colour on that number on the grid
- say to your partner: 'guess what my number was'
- if they guess correctly, they can put one of their counters on one of the stars

Continue until all the cards are used up. The winner is the person with the longest line of counters in their colour.

28	★	3	★	20	32
12	0	24	16	★	18
★	24	★	4	36	★
6	★	★	27	★	8
15	★	21	★	24	★
★	★	12	★	★	9

Remember to read the instructions before you play the game
